SECTION A - PERMIT AUTHORIZATION

Pursuant to a duly submitted application the Kentucky Division for Air Quality hereby authorizes the operation of the equipment described herein in accordance with the terms and conditions of this permit. This permit has been issued under the provisions of Kentucky Revised Statutes Chapter 224 and regulations promulgated pursuant thereto.

The permittee shall not construct, reconstruct, or modify any affected facilities without first submitting a complete application and receiving a permit for the planned activity from the permitting authority, except as provided in this permit or in 401 KAR 52:020, Title V Permits.

Issuance of this permit does not relieve the permittee from the responsibility of obtaining any other permits, licenses, or approvals required by this Cabinet or any other federal, state, or local agency.

SECTION B - EMISSION POINTS, EMISSION UNITS, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS**Emission Points: 01 - 05, and 07 Extrusion Lines****Description:****01 Extrusion Line # 1**

MP1 Extrusion Adhesive - extrusion adhesive application (A1630B).

The consumption of material is 0.552 lbs per hr.

MP2 Flocking Adhesive 1 - flocking adhesive application (ASQ100A).

The consumption of material is 4.07 lbs per hr.

MP3 Flocking Adhesive 2 - flocking adhesive application (ASP50B).

The consumption of material is 2.15 lbs per hr.

MP4 Cleaning - cleaning process (MEK).

The consumption of material is 0.56 lbs per hr.

Control Equipment

None

Date of construction

December 1996

02 Extrusion Line # 2

MP1 Extrusion Adhesive 1 - extrusion adhesive application (A1630B).

The consumption of material is 0.613 lbs per hr.

MP2 Extrusion Adhesive 2 - extrusion adhesive application (A1104B).

The consumption of material is 0.127 lbs per hr.

MP3 Flocking Adhesive 1 - flocking adhesive application (ASQ100A).

The consumption of material is 1.81 lbs per hr.

MP4 Flocking Adhesive 2 - flocking adhesive application (ASP50B).

The consumption of material is 1.03 lbs per hr.

MP5 Cleaning - cleaning process (MEK).

The consumption of material is 0.56 lbs per hr.

Control Equipment

None

Date of construction

December 1996

SECTION B - EMISSION POINTS, EMISSION UNITS, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)**Description (Continued):****03 Extrusion Line # 3**

MP1 Extrusion Adhesive - extrusion adhesive application (A1630B).

The consumption of material is 0.859 lbs per hr.

MP2 Flocking Adhesive 1 - flocking adhesive application (ASQ100A).

The consumption of material is 2.21 lbs per hr.

MP3 Flocking Adhesive 2 - flocking adhesive application (ASP50B).

The consumption of material is 0.59 lbs per hr.

MP4 Cleaning - cleaning process (MEK).

The consumption of material is 0.56 lbs per hr.

MP5 Cleaning - cleaning process (TOLUENE).

The consumption of material is 0.13 lbs per hr.

Control Equipment

None

Date of construction

July 1997

04 Extrusion Line # 4

MP1 Extrusion Adhesive 1 - extrusion adhesive application (A1630B).

The consumption of material is 0.552 lbs per hr.

MP2 Flocking Adhesive 1 - flocking adhesive application (ASQ100A).

The consumption of material is 1.76 lbs per hr.

MP3 Flocking Adhesive 2 - flocking adhesive application (ASP 50B).

The consumption of material is 1.66 lbs per hr.

MP4 Extrusion Adhesive 2 - extrusion adhesive application (A1104B).

The consumption of material is 0.127 lbs per hr.

MP5 Cleaning - cleaning process (MEK).

The consumption of material is 0.56 lbs per hr.

Control Equipment

None

Date of construction

May 1998

SECTION B - EMISSION POINTS, EMISSION UNITS, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)**Description (Continued):****05 Extrusion Line # 5**

MP1 Extrusion Adhesive - extrusion adhesive application (A1630B).

The consumption of material is 0.123 lbs per hr.

MP2 Cleaning - cleaning process (MEK).

The consumption of material is 0.25 lbs per hr.

Control Equipment

None

Date of construction

January 1999

07 Extrusion Line # 6

MP1 Extrusion Adhesive - adhesive application (R200).

The consumption of material is 1.47 lbs per hr.

MP2 Adhesive Thinner - adhesive thinner application (TOLUENE).

The consumption of material is 1.47 lbs per hr.

MP3 Flocking Adhesive 1 - flocking adhesive application (ASQ100A).

The consumption of material is 2.20 lbs per hr.

MP4 Flocking Adhesive 2 - flocking adhesive application (ASP50B).

The consumption of material is 1.47 lbs per hr.

MP5 Cleaning - cleaning process (MEK).

The consumption of material is 0.56 lbs per hr.

Control Equipment

None

Date of construction

July 2005

SECTION B - EMISSION POINTS, EMISSIONS UNITS, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)**APPLICABLE REGULATION:**

401 KAR 63:002, *National Emissions Standards for Hazardous Air Pollutants (Subpart MMMM and PPPP)*, applies to major sources of HAP.

40 CFR 63 Subpart MMMM, *National Emission Standards for Hazardous Air Pollutants for Surface Coating of Miscellaneous Metal Parts and Products*, applies to major sources of NESHAP. The regulation 40 CFR 63 Subpart MMMM has to comply with a compliance date of January 2, 2007.

40 CFR 63 Subpart PPPP, *National Emission Standards for Hazardous Air Pollutants for Surface Coating of Miscellaneous Metal Parts and Products*, applies to major sources of NESHAP. The regulation 40 CFR 63 Subpart PPPP has to comply with a compliance date of April 19, 2007.

401 KAR 63:020, *Potentially Hazardous Matter or Toxic Substances*, applies to each affected facility that emits or may emit potentially hazardous matter or toxic substances.

1. Operating Limitations:

- a. The permittee shall employ all applicable operating limits and work practice standards detailed in 40 CFR 63.3892 and 63.3893, provided the facility meets the definitions of a subject affected source as defined in 40 CFR 63.3881 and 63.3882. [401 KAR 63:002, Section 3(sss); 40 C.F.R. 63.3880 to 63.3981 (Subpart MMMM)]
- b. The permittee shall employ all applicable operating limits and work practice standards detailed in 40 CFR 63.4492 and 63.4493, provided the facility meets the definitions of a subject affected source as defined in 40 CFR 63.4481 and 63.4482. [401 KAR 63:002, Section 3(vvv); 40 C.F.R. 63.4480 to 63.4581 (Subpart PPPP)]
- c. The permittee shall provide the utmost care and consideration, in the handling of hazardous matter or toxic substances, to the potentially harmful effects of the emissions resulting from such activities. [401 KAR 63:020, Section 3]

Compliance Demonstration Method: See the **Testing, Monitoring, Recordkeeping, and Reporting Requirements**, below.

2. Emission Limitations:

- a. Refer to **SECTION D.4**
- b. Pursuant to 401 KAR 63:020, no owner or operator shall allow any affected facility to emit potentially hazardous matter or toxic substances in such quantities or duration as to be harmful to the health and welfare of humans, animals and plants.

Compliance Demonstration Method:

- a & b. Refer to **SECTION D.4**

SECTION B - EMISSION POINTS, EMISSIONS UNITS, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)

3. Testing Requirements:

Testing shall be conducted at such times as may be required by the cabinet in accordance with the 401 KAR 59:005 Section 2(2) and KAR 50:045 Section 4.

4. Specific Monitoring Requirements:

The **Specific Recordkeeping Requirements**, below, dictate the monitoring requirements.

5. Specific Record Keeping Requirements:

The permittee shall keep calendar month records of the usage of base coats, clear coats, solvents and clean up solvents or any other VOC/HAP containing material. At the end of each month volatile organic compounds (VOC) and hazardous air pollutants (HAPs) emissions shall be calculated and recorded. These records shall be summarized and tons per month VOC/HAP emissions calculated and recorded. Tons per VOC/HAP per 12 months shall be recorded. The recorded tons per 12 months shall be a 12 months rolling total representing the most recent year. In addition, those records shall comply with VOC/HAP emissions limitations listed in this permit for each conditional major limitation. These records, as well as purchase orders and invoices for all VOC/HAP containing materials, shall be made available for inspection upon request by duly authorized representatives of the Division for Air Quality.

As of the applicable compliance date from 40 CFR Part 63, Subpart M MMMM, the permittee shall collect and keep all applicable records of the data and information detailed in 40 CFR 63.3930 in the manner detailed in 40 CFR 63.3931, provided the facility meets the definitions of a subject affected source as defined in 40 CFR 63.3881 and 63.3882 of 40 CFR Part 63, Subpart M MMMM.

As of the applicable compliance date from 40 CFR Part 63, Subpart P PPPP, the permittee shall collect and keep all applicable records of the data and information detailed in 40 CFR 63.4530 in the manner detailed in 40 CFR 63.4531, provided the facility meets the definitions of a subject affected source as defined in 40 CFR 63.4481 and 63.4482 of 40 CFR Part 63, Subpart P PPPP.

6. Specific Reporting Requirements

Reports shall be certified by a responsible official, and delivered or postmarked to the Division's Ashland Regional Office by January 30th and July 30th of each year. The certification shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the documents are true, accurate, and complete. The semi-annual reports shall include the following:

1. Any deviations from requirements in Section B.
2. The VOC emission calculation for each month.
3. The individual HAP emission calculation for each month.
4. The combined HAPs emission calculation for each month.

SECTION B - EMISSION POINTS, EMISSIONS UNITS, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)

5. The rolling 12 month total for VOC during each month.
6. The rolling 12 month total of individual HAP's for each month.
7. The rolling 12 month total of combined HAP's for each month.

As of the applicable compliance dates from 40 CFR Part 63, Subpart Mmmm, the permittee shall submit all applicable reports and notifications detailed in 40 CFR 63.3910 and 63.3920, provided the facility meets the definitions of a subject affected source as defined in 40 CFR 63.3881 and 63.3882 of 40 CFR Part 63, Subpart Mmmm.

As of the applicable compliance dates from 40 CFR Part 63, Subpart Pppp, the permittee shall submit all applicable reports and notifications detailed in 40 CFR 63.4510 and 63.4520, provided the facility meets the definitions of a subject affected source as defined in 40 CFR 63.4481 and 63.4482 of 40 CFR Part 63, Subpart Pppp.

7. **Specific Control Equipment Operating Conditions:** None.
8. **Alternate Operating Scenarios:** None.
9. **Compliance Schedule:**

Provided the facility meets the definition of an affected source as defined in 40 CFR 63.3881 and 63.3882 of 40 CFR Part 63, Subpart Mmmm (Mmmm MACT), the emissions units subject to Mmmm MACT shall comply with the requirements of Mmmm MACT by the compliance date of January 2, 2007. Further, provided the facility meets the definition of an affected source as defined in 40 CFR 63.4481 and 63.4482 of 40 CFR Part 63, Subpart Pppp (Pppp MACT), the emissions units subject to Pppp MACT shall comply with the requirements of Pppp MACT by the compliance date of April 19, 2007. In addition, the facility would be subject to the applicable portions of the MACT General Provisions (Subpart A) and any other subparts referenced within the terms of Subparts Mmmm, Pppp and A. The Mmmm and Pppp MACT terms are incorporated into the Title V operating permit for this facility.

SECTION C - INSIGNIFICANT ACTIVITIES

The following listed activities have been determined to be insignificant activities for this source pursuant to 401 KAR 52:020, Section 6. While these activities are designated as insignificant the permittee must comply with the applicable regulation and some minimal level of periodic monitoring may be necessary.

<u>Description</u>	<u>Generally Applicable Regulation</u>
1. Finishing Operations	NA

SECTION D - SOURCE EMISSION LIMITATIONS AND TESTING REQUIREMENTS

1. As required by Section 1b of the material incorporated by reference in 401 KAR 52:020, Section 26; compliance with annual emissions and processing limitations contained in this permit, shall be based on emissions and processing rates for any twelve (12) consecutive months.
2. Testing shall be conducted at such times as may be required by the cabinet in accordance with the 401 KAR 59:005 Section 2(2) and KAR 50:045 Section 4.
3. Volatile Organic Compound (VOC) and Hazardous Air Pollutant (HAP) emissions, as measured by methods referenced in 401 KAR 50:012, Section 1, shall not exceed the respective limitations specified herein.
4. a. The total annual source-wide emissions shall not exceed the following limitations on a twelve month (12) rolling total: [401 KAR 52:020, Section 1]
 - (1) Volatile Organic Compound (VOC) emissions shall not exceed 90 TPY.
 - (2) Emissions of any single Hazardous Air Pollutant (HAP) shall not exceed 9 TPY.
 - (3) Emissions of combined Hazardous Air Pollutant (HAP) shall not exceed 22.5 TPY.

Compliance Demonstration Method:

Monthly VOC / HAP emission = [Monthly usage of each coating, solvent, thinner diluents, or any other VOC/HAP containing material in pounds or gallons per month] x [VOC/HAP fraction] x [appropriate conversion factor (if usage is in gallons) for gallons to pounds for each coating, solvent thinner, diluents, or any other VOC/HAP containing material used]

- b. In order to show compliance with 401 KAR 63:020, potentially hazardous matter or toxic substances, the permittee shall model for toluene, MEK (2-butanone), and MIBK (4-methyl-2-pentanone) from the source. The concentration of each pollutant in the ambient air, open to the public, shall be below the reference concentration (RFC) of 5 mg/m³ for toluene, 5 mg/m³ for MEK, and 3 mg/m³ for MIBK (as listed in the EPA Integrated Risk Information System (IRIS)). Results shall be sent to the Division of Air Quality, no later than 3 months from issuance of this permit.
5. The permittee is subject to the HAP content limitations detailed in 40 CFR 63.3891 as of the applicable compliance date detailed.

Applicable Compliance Method:

As of the applicable compliance date from 40 CFR Part 63, Subpart M, the permittee shall demonstrate compliance using the applicable methods detailed in 40 CFR 63.3940 through 63.3968 inclusive, provided the facility meets the definitions of a subject affected source as defined in 40 CFR 63.3881 and 63.3882 of 40 CFR Part 63, Subpart M.

SECTION D - SOURCE EMISSION LIMITATIONS AND TESTING REQUIREMENTS (CONTINUED)

6. The permittee is subject to the HAP content limitations detailed in 40 CFR 63.4490 as of the applicable compliance date detailed.

Applicable Compliance Method:

As of the applicable compliance date from 40 CFR Part 63, Subpart PPPP, the permittee shall demonstrate compliance using the applicable methods detailed in 40 CFR 63.4540 through 63.4568 inclusive, of that subpart, provided the facility meets the definitions of a subject affected source as defined in 40 CFR 63.4481 and 63.4482 of 40 CFR Part 63, Subpart PPPP.

SECTION E - SOURCE CONTROL EQUIPMENT REQUIREMENTS

1. Pursuant to 401 KAR 50:055, Section 2(5), at all times, including periods of startup, shutdown and malfunction, owners and operators shall, to the extent practicable, maintain and operate any affected facility including associated air pollution control equipment in a manner consistent with good air pollution control practice for minimizing emissions. Determination of whether acceptable operating and maintenance procedures are being used will be based on information available to the Division which may include, but is not limited to, monitoring results, opacity observations, review of operating and maintenance procedures, and inspection of the source.

SECTION F - MONITORING, RECORDKEEPING, AND REPORTING REQUIREMENTS

1. Pursuant to Section 1b (IV)1 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26, when continuing compliance is demonstrated by periodic testing or instrumental monitoring, the permittee shall compile records of required monitoring information that include:
 - a. Date, place as defined in this permit, and time of sampling or measurements;
 - b. Analyses performance dates;
 - c. Company or entity that performed analyses;
 - d. Analytical techniques or methods used;
 - e. Analyses results; and
 - f. Operating conditions during time of sampling or measurement.
2. Records of all required monitoring data and support information, including calibrations, maintenance records, and original strip chart recordings, and copies of all reports required by the Division for Air Quality, shall be retained by the permittee for a period of five years and shall be made available for inspection upon request by any duly authorized representative of the Division for Air Quality [Sections 1b(IV) 2 and 1a(8) of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].
3. In accordance with the requirements of 401 KAR 52:020 Section 3(1)h the permittee shall allow authorized representatives of the Cabinet to perform the following during reasonable times:
 - a. Enter upon the premises to inspect any facility, equipment (including air pollution control equipment), practice, or operation;
 - b. To access and copy any records required by the permit;
 - c. Sample or monitor, at reasonable times, substances or parameters to assure compliance with the permit or any applicable requirements.Reasonable times are defined as during all hours of operation, during normal office hours; or during an emergency.
4. No person shall obstruct, hamper, or interfere with any Cabinet employee or authorized representative while in the process of carrying out official duties. Refusal of entry or access may constitute grounds for permit revocation and assessment of civil penalties.
5. Summary reports of any monitoring required by this permit, other than continuous emission or opacity monitors, shall be submitted to the Regional Office listed on the front of this permit at least every six (6) months during the life of this permit, unless otherwise stated in this permit. For emission units that were still under construction or which had not commenced operation at the end of the 6-month period covered by the report and are subject to monitoring requirements in this permit, the report shall indicate that no monitoring was performed during the previous six months because the emission unit was not in operation [Section 1b (V)1 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].

SECTION F - MONITORING, RECORDKEEPING, AND REPORTING REQUIREMENTS (CONTINUED)

6. The semi-annual reports are due by January 30th and July 30th of each year. Data from the continuous emission and opacity monitors shall be reported to the Technical Services Branch in accordance with the requirements of 401 KAR 59:005, General Provisions, Section 3(3). All reports shall be certified by a responsible official pursuant to 401 KAR 52:020 Section 23. All deviations from permit requirements shall be clearly identified in the reports.
7. In accordance with the provisions of 401 KAR 50:055, Section 1 the owner or operator shall notify the Regional Office listed on the front of this permit concerning startups, shutdowns, or malfunctions as follows:
 - a. When emissions during any planned shutdowns and ensuing startups will exceed the standards, notification shall be made no later than three (3) days before the planned shutdown, or immediately following the decision to shut down, if the shutdown is due to events which could not have been foreseen three (3) days before the shutdown.
 - b. When emissions due to malfunctions, unplanned shutdowns and ensuing startups are or may be in excess of the standards, notification shall be made as promptly as possible by telephone (or other electronic media) and shall be submitted in writing upon request.
8. The owner or operator shall report emission related exceedances from permit requirements including those attributed to upset conditions (other than emission exceedances covered by Section F.7. above) to the Regional Office listed on the front of this permit within *30 days*. Other deviations from permit requirements shall *be included in the semiannual report required by Section F.6* [Section 1b (V) 3, 4. of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].
9. Pursuant to 401 KAR 52:020, Permits, Section 21, the permittee shall annually certify compliance with the terms and conditions contained in this permit, by completing and returning a Compliance Certification Form (DEP 7007CC) (or an alternative approved by the regional office) to the Regional Office listed on the front of this permit and the U.S. EPA in accordance with the following requirements:
 - a. Identification of the term or condition;
 - b. Compliance status of each term or condition of the permit;
 - c. Whether compliance was continuous or intermittent;
 - d. The method used for determining the compliance status for the source, currently and over the reporting period.
 - e. For an emissions unit that was still under construction or which has not commenced operation at the end of the 12-month period covered by the annual compliance certification, the permittee shall indicate that the unit is under construction and that compliance with any applicable requirements will be demonstrated within the timeframes specified in the permit.

SECTION F - MONITORING, RECORDKEEPING, AND REPORTING REQUIREMENTS (CONTINUED)

- f. The certification shall be postmarked by January 30th of each year. Annual compliance certifications should be mailed to the following addresses:

Division for Air Quality
Ashland Regional Office
P. O. Box # 1507
3700 13th Street
Ashland, KY 41105

U.S. EPA Region 4
Air Enforcement Branch
Atlanta Federal Center
61 Forsyth St.
Atlanta, GA 30303-8960

Division for Air Quality
Central Files
803 Schenkel Lane
Frankfort, KY 40601

10. In accordance with 401 KAR 52:020, Section 22, the permittee shall provide the Division with all information necessary to determine its subject emissions within thirty (30) days of the date the KYEIS emission survey is mailed to the permittee.
11. Results of performance test(s) required by the permit shall be submitted to the Division by the source or its representative within forty-five days or sooner if required by an applicable standard, after the completion of the fieldwork.

SECTION G - GENERAL PROVISIONS(a) General Compliance Requirements

1. The permittee shall comply with all conditions of this permit. Noncompliance shall be a violation of 401 KAR 52:020 and of the Clean Air Act and is grounds for enforcement action including but not limited to termination, revocation and reissuance, revision or denial of a permit [Section 1a, 3 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020 Section 26].
2. The filing of a request by the permittee for any permit revision, revocation, reissuance, or termination, or of a notification of a planned change or anticipated noncompliance, shall not stay any permit condition [Section 1a, 6 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].
3. This permit may be revised, revoked, reopened and reissued, or terminated for cause in accordance with 401 KAR 52:020, Section 19. The permit will be reopened for cause and revised accordingly under the following circumstances:
 - a. If additional applicable requirements become applicable to the source and the remaining permit term is three (3) years or longer. In this case, the reopening shall be completed no later than eighteen (18) months after promulgation of the applicable requirement. A reopening shall not be required if compliance with the applicable requirement is not required until after the date on which the permit is due to expire, unless this permit or any of its terms and conditions have been extended pursuant to 401 KAR 52:020, Section 12;
 - b. The Cabinet or the U. S. EPA determines that the permit must be revised or revoked to assure compliance with the applicable requirements;
 - c. The Cabinet or the U. S. EPA determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the permit;

Proceedings to reopen and reissue a permit shall follow the same procedures as apply to initial permit issuance and shall affect only those parts of the permit for which cause to reopen exists. Reopenings shall be made as expeditiously as practicable. Reopenings shall not be initiated before a notice of intent to reopen is provided to the source by the Division, at least thirty (30) days in advance of the date the permit is to be reopened, except that the Division may provide a shorter time period in the case of an emergency.

4. The permittee shall furnish information upon request of the Cabinet to determine if cause exists for modifying, revoking and reissuing, or terminating the permit; or to determine compliance with the conditions of this permit [Section 1a, 7,8 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].
5. The permittee, upon becoming aware that any relevant facts were omitted or incorrect information was submitted in the permit application, shall promptly submit such facts or corrected information to the permitting authority [401 KAR 52:020, Section 7(1)].

SECTION G - GENERAL PROVISIONS (CONTINUED)

6. Any condition or portion of this permit which becomes suspended or is ruled invalid as a result of any legal or other action shall not invalidate any other portion or condition of this permit [Section 1a, 14 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].
7. The permittee shall not use as a defense in an enforcement action the contention that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance [Section 1a, 4 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].
8. Except for requirements identified in this permit as state-origin requirements, all terms and conditions shall be enforceable by the United States Environmental Protection Agency and citizens of the United States [Section 1a, 15 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].
9. This permit shall be subject to suspension if the permittee fails to pay all emissions fees within 90 days after the date of notice as specified in 401 KAR 50:038, Section 3(6) [Section 1a, 10 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].
10. Nothing in this permit shall alter or affect the liability of the permittee for any violation of applicable requirements prior to or at the time of permit issuance [401 KAR 52:020, Section 11(3)(b)].
11. This permit does not convey property rights or exclusive privileges [Section 1a, 9 of the *Cabinet Provisions and Procedures for Issuing Title V Permits* incorporated by reference in 401 KAR 52:020, Section 26].
12. Issuance of this permit does not relieve the permittee from the responsibility of obtaining any other permits, licenses, or approvals required by the Kentucky Cabinet for Environmental and Public Protection or any other federal, state, or local agency.
13. Nothing in this permit shall alter or affect the authority of U.S. EPA to obtain information pursuant to Federal Statute 42 USC 7414, Inspections, monitoring, and entry [401 KAR 52:020, Section 11(3)(d)].
14. Nothing in this permit shall alter or affect the authority of U.S. EPA to impose emergency orders pursuant to Federal Statute 42 USC 7603, Emergency orders [401 KAR 52:020, Section 11(3)(a)].
15. This permit consolidates the authority of any previously issued PSD, NSR, or Synthetic Minor source preconstruction permit terms and conditions for various emission units and incorporates all requirements of those existing permits into one single permit for this source.

SECTION G - GENERAL PROVISIONS (CONTINUED)

16. Pursuant to 401 KAR 52:020, Section 11, a permit shield shall not protect the owner or operator from enforcement actions for violating an applicable requirement prior to or at the time of issuance. Compliance with the conditions of a permit shall be considered compliance with:
 - a. Applicable requirements that are included and specifically identified in the permit and
 - b. Non-applicable requirements expressly identified in this permit.

(b) Permit Expiration and Reapplication Requirements

1. This permit shall remain in effect for a fixed term of five (5) years following the original date of issue. Permit expiration shall terminate the source's right to operate unless a timely and complete renewal application has been submitted to the Division at least six months prior to the expiration date of the permit. Upon a timely and complete submittal, the authorization to operate within the terms and conditions of this permit, including any permit shield, shall remain in effect beyond the expiration date, until the renewal permit is issued or denied by the Division [401 KAR 52:020, Section 12].
2. The authority to operate granted shall cease to apply if the source fails to submit additional information requested by the Division after the completeness determination has been made on any application, by whatever deadline the Division sets [401 KAR 52:020 Section 8(2)].

(c) Permit Revisions

1. A minor permit revision procedure may be used for permit revisions involving the use of economic incentive, marketable permit, emission trading, and other similar approaches, to the extent that these minor permit revision procedures are explicitly provided for in the SIP or in applicable requirements and meet the relevant requirements of 401 KAR 52:020, Section 14(2).
2. This permit is not transferable by the permittee. Future owners and operators shall obtain a new permit from the Division for Air Quality. The new permit may be processed as an administrative amendment if no other change in this permit is necessary, and provided that a written agreement containing a specific date for transfer of permit responsibility coverage and liability between the current and new permittee has been submitted to the permitting authority within ten (10) days following the transfer.

SECTION G - GENERAL PROVISIONS (CONTINUED)**(d) Construction, Start-Up, and Initial Compliance Demonstration Requirements**

Pursuant to a duly submitted application the Kentucky Division for Air Quality hereby authorizes the construction of the equipment described herein, emission point 07 (Extrusion Line # 6) in accordance with the terms and conditions of this permit.

1. Construction of any process and/or air pollution control equipment authorized by this permit shall be conducted and completed only in compliance with the conditions of this permit.
2. Within thirty (30) days following commencement of construction and within fifteen (15) days following start-up and attainment of the maximum production rate specified in the permit application, or within fifteen (15) days following the issuance date of this permit, whichever is later, the permittee shall furnish to the Regional Office listed on the front of this permit in writing, with a copy to the Division's Frankfort Central Office, notification of the following:
 - a. The date when construction commenced.
 - b. The date of start-up of the affected facilities listed in this permit.
 - c. The date when the maximum production rate specified in the permit application was achieved.
3. Pursuant to 401 KAR 52:020, Section 3(2), unless construction is commenced within eighteen (18) months after the permit is issued, or begins but is discontinued for a period of eighteen (18) months or is not completed within a reasonable timeframe then the construction and operating authority granted by this permit for those affected facilities for which construction was not completed shall immediately become invalid. Upon written request, the Cabinet may extend these time periods if the source shows good cause.
4. For those affected facilities for which construction is authorized by this permit, a source shall be allowed to construct with the proposed permit. Operational or final permit approval is not granted by this permit until compliance with the applicable standards specified herein has been demonstrated pursuant to 401 KAR 50:055. If compliance is not demonstrated within the prescribed timeframe provided in 401 KAR 50:055, the source shall operate thereafter only for the purpose of demonstrating compliance, unless otherwise authorized by Section I of this permit or order of the Cabinet.
3. This permit shall allow time for the initial start-up, operation, and compliance demonstration of the affected facilities listed herein. However, within sixty (60) days after achieving the maximum production rate at which the affected facilities will be operated but not later than 180 days after initial start-up of such facilities, the permittee shall conduct a performance demonstration on the affected facilities in accordance with 401 KAR 50:055, General compliance requirements.
6. Terms and conditions in this permit established pursuant to the construction authority of 401 KAR 51:017 or 401 KAR 51:052 shall not expire.

SECTION G - GENERAL PROVISIONS (CONTINUED)

(e) Acid Rain Program Requirements

1. If an applicable requirement of Federal Statute 42 USC 7401 through 7671q (the Clean Air Act) is more stringent than an applicable requirement promulgated pursuant to Federal Statute 42 USC 7651 through 7651o (Title IV of the Act), both provisions shall apply, and both shall be state and federally enforceable.

(f) Emergency Provisions

1. Pursuant to 401 KAR 52:020 Section 24(1), an emergency shall constitute an affirmative defense to an action brought for the noncompliance with the technology-based emission limitations if the permittee demonstrates through properly signed contemporaneous operating logs or relevant evidence that:
 - a. An emergency occurred and the permittee can identify the cause of the emergency;
 - b. The permitted facility was at the time being properly operated;
 - c. During an emergency, the permittee took all reasonable steps to minimize levels of emissions that exceeded the emissions standards or other requirements in the permit; and
 - d. Pursuant to 401 KAR 52:020, 401 KAR 50:055, and KRS 224.01-400, the permittee notified the Division as promptly as possible and submitted written notice of the emergency to the Division when emission limitations were exceeded due to an emergency. The notice shall include a description of the emergency, steps taken to mitigate emissions, and corrective actions taken.
 - e. This requirement does not relieve the source of other local, state or federal notification requirements.
2. Emergency conditions listed in General Condition (f)1 above are in addition to any emergency or upset provision(s) contained in an applicable requirement [401 KAR 52:020, Section 24(3)].
3. In an enforcement proceeding, the permittee seeking to establish the occurrence of an emergency shall have the burden of proof [401 KAR 52:020, Section 24(2)].

(g) Risk Management Provisions

1. The permittee shall comply with all applicable requirements of 401 KAR Chapter 68, Chemical Accident Prevention, which incorporates by reference 40 CFR Part 68, Risk Management Plan provisions. If required, the permittee shall comply with the Risk Management Program and submit a Risk Management Plan to:

RMP Reporting Center
P.O. Box 1515
Lanham-Seabrook, MD 20703-1515.

2. If requested, submit additional relevant information to the Division or the U.S. EPA.

SECTION G - GENERAL PROVISIONS (CONTINUED)

(h) Ozone depleting substances

1. The permittee shall comply with the standards for recycling and emissions reduction pursuant to 40 CFR 82, Subpart F, except as provided for Motor Vehicle Air Conditioners (MVACs) in Subpart B:
 - a. Persons opening appliances for maintenance, service, repair, or disposal shall comply with the required practices contained in 40 CFR 82.156.
 - b. Equipment used during the maintenance, service, repair, or disposal of appliances shall comply with the standards for recycling and recovery equipment contained in 40 CFR 82.158.
 - c. Persons performing maintenance, service, repair, or disposal of appliances shall be certified by an approved technician certification program pursuant to 40 CFR 82.161.
 - d. Persons disposing of small appliances, MVACs, and MVAC-like appliances (as defined at 40 CFR 82.152) shall comply with the recordkeeping requirements pursuant to 40 CFR 82.166
 - e. Persons owning commercial or industrial process refrigeration equipment shall comply with the leak repair requirements pursuant to 40 CFR 82.156.
 - f. Owners/operators of appliances normally containing 50 or more pounds of refrigerant shall keep records of refrigerant purchased and added to such appliances pursuant to 40 CFR 82.166.
2. If the permittee performs service on motor (fleet) vehicle air conditioners containing ozone-depleting substances, the source shall comply with all applicable requirements as specified in 40 CFR 82, Subpart B, *Servicing of Motor Vehicle Air Conditioners*.
